

THE DAILY NEWS.

SATURDAY..... MARCH 14, 1874.

JORDAN STONE..... Managing Editor.

EDITORIAL BREVITIES.

Chicago is now deeply disgusted with the new Railroad law passed by the Illinois Legislature.

The Petersburg "Daily News" thinks the act of our recent Legislature concerning fertilizers a bad law.

Gen. J. S. Marquand, having turned his sword to pruning-hook, now thought of as the Granger candidate for Governor of Missouri.

A drunken man pounding his wife to death has received ten years imprisonment.

The Conservative Club in Virginia are actively engaged in reorganization for the spring campaign.

That looks like business!

The death of Millard Fillmore leaves Andrew Johnson as the only ex President of the United States now living. It is a mighty inferior article we have left on hand.

We rather think so too, brother "News," but the law was passed by a body having a majority of farmers in its membership. We'll try it one year and if it works badly, then we'll repeal.

Mr. Carl Rosa, the husband of the late Parrot-Rosa, has announced his intention to create in this country a "Parrot-Rosa Scholarship," with an income to be devoted to the education of American female singers in the Italian schools.

The New York "Sun" has discovered the fact that Grant's cabinet, footmen, barber and all men employed about the White House are provided for on the Adjutant General's pay-rolls, as enlisted men and paid out of the appropriation made for the support of the army.

England gives to her illustrious deads burial place in Westminster Abbey, upon the application of the family, or friends of the deceased. Hearing that the body of Livingston was to be brought to England for interment, Dean Stanley wrote to his family, waiving the making of request and tendering sequestration in the Abbey.

General Bradley T. Johnson, of Richmond, has withdrawn as counsel in the case of Col. Wm. D. Coleman charged with embezzlement. The reason given was that, in the investigation of the charges, Gen. Johnson discovered that it might be necessary for him to become a witness in favor of Coleman, and he was unwilling to be both witness and counsel in the same cause.

Brig. General Nelson A. Miles, whom many here will remember, has been appointed a member of the Court Martial for the trial of Gen. O. O. Howard, Daniel Sickles, and others. In this case, according to the powers given to the organizations of Court Martial to convict the object seems acquittal not conviction: for did not the President consent with the prisoner as to composition of the Court, and were not its members acceptable to O. O?

Henry Ward Beecher is probably the most widely known American minister. His sermons are regularly reported for publication in both the religious and secular papers of New York city. The two facts make his responsibility for the truth of his pulpit utterances monstrous in its weight. In his last Sunday sermon he asked and answered the following questions: "Can I have the grace of God in my heart and swear? Yes, I think a great many have the grace of God in their heart and swear, not that it is a gracious act. I don't recommend swearing, but I can understand how a man can do it and not be half so bad as the man who never wants to swear." That's making things comfortable for a sinner, is it not?

It seems to be generally conceded that Senator SPRAGUE, of Rhode Island, will not be able to secure his re-election. In this view of the case the question of his successor becomes a matter of exceeding interest to the people of that State. Quite a list of names of gentlemen, willing to sacrifice their private interests for the public weal, has appeared already. Among the number of Barksis who are "willing" we find General A. E. BURNSIDE, Gov. HENRY HOWARD, ex-Congressman DIXON and JENKES and WILLIAM P. SHEFFIELD. Gov. HOWARD is said to be the SPRAGUE candidate, while the ANTHONY influence is for Mr. DIXON.

The Wilmington Journal suggests Col. STEPHEN D. POOL, Chief Clerk of the House of Representatives, as the Democratic candidate for Superintendent of Public Instruction. We warmly endorse the many kind things said by the Journal in support of Col. Pool's claims upon the party. He has done faithful and effective service in every campaign, and deserves consideration at the hands of his political friends. In addition to this, the least of the reasons urged in Col. Pool's behalf, we know him to be, in every way, competent to an acceptable discharge of the duties of the office. Cultured, pains-taking, accurate and *almost* enthusiastic, he would bring to the office precisely those qualities which are necessary to make it a blessing to the children of the State.

The State Board of Immigration appointed by act of the General Assembly, passed at its last session, met in this city on Thursday last. The Board is composed of active, intelligent and patriotic citizens and the manner in which it addressed itself to the work appointed it to do leads us to hope for great beneficial results from its consultations and acts.

The Board, upon motion of Col. WM. JOHNSTON, of Charlotte, ordered the preparation of a pamphlet setting forth in detail the advantages, in the way of soil, climate and products offered by this State. Subsequently, by resolution, WM. MURDOCH, Esq., of Salisbury, now traveling in Europe, was requested to represent the Board in its labors abroad.

The Board adjourned to meet again on Wednesday, April 8th, 1874. We hope that the Executive Committee of the Board will have the pamphlet ready for report by the next meeting, and that it may be printed in time to furnish Mr. Murdoch with a large number of copies for distribution in his travels.

A Michigan young woman poisoned herself because her pretty nose had been broken by a board.

NEW HAMPSHIRE has spoken in rebuke of the incompetency and profligacy of the GRANT administration, and has aligned herself in the ranks of the States whose people demand a return to the principles and practices of the better days of the Republic.

WESTON's majority over McCUTCHEON approximates two thousand—a remarkable change in public sentiment, when it is remembered that the Republican party sought to win favor with the agricultural masses by discarding the claims of the men who were eminent for their services in former conflicts, and nominating McCUTCHEON "because he was a farmer."

So heralded, its leaders hoped to induce a sufficient number of the voters of the Granite State, residents of farming districts, to secure the defeat of WESTON. But they reckoned without their host. The abuses and corruptions of the party in power; its frequent and flagrant violations of its sacred pledges for economy and reform and its disgraceful failure to afford relief from the financial difficulties begotten by the late panic have taught the people to distrust its professions of friendship for their best interests, and to regard with contempt its boasted pretension to all the "enlightened statesmanship" of the land.

The State is a close one in elections, between the hours of SEVEN (7) and NINE (9) o'clock, p. m. precisely, for the office of CHIEF ENGINEER

of the RALEIGH FIRE DEPARTMENT.

It is therefore necessary that each Fireman of his Company will appoint TWO INSPECTORS as Poll Holders, and request his Secretary to furnish said inspectors with a correct and full list of the men under his control.

By order of the Chief, R. T. BOSHER, Assistant Chief Engineer. mar 10-1w

The General Assembly of Virginia adjourned yesterday in honor of the memory of the late ex-President Fillmore. Eulogies were pronounced upon the character of the deceased by Mr. Stuart, of Augusta, in the House, and by Mr. Crittenden, of Westmoreland in the Senate. Both efforts were fine. Mr. Stuart's is said to have been one of the most eloquent ever heard in the Legislature of Virginia. He was a member of Mr. Fillmore's Cabinet, and was well prepared from his intimate knowledge of the character of the deceased to pass a proper eulogium upon it.—*Richmond Dispatch* 2nd Inst.

Owing to little difficulty in transportation arrangements, Brigham Young does not lay up his treasures in heaven, but has deposited \$7,000,000 in the Bank of England.

The temperance people in Hardy and Hampshire counties, West Virginia, have added a new article to their faith. They war against whisky-drinkers and snuff-dippers.

A young man at Phillipburg has sued a lady to whom he was engaged for the return of a gold watch and chain which he gave her during the early days of their intimacy.

ATTENTION FIRE COMPANIES.

You are hereby notified that an

ELECTION

will be held at FIREMAN'S HALL on

TUESDAY EVENING, March the 17th, between the hours of SEVEN (7) and NINE (9) o'clock, p. m. precisely, for the office of

CHIEF ENGINEER

of the RALEIGH FIRE DEPARTMENT.

It is therefore necessary that each Fireman of his Company will appoint TWO INSPECTORS as Poll Holders, and request his Secretary to furnish said inspectors with a correct and full list of the men under his control.

By order of the Chief, R. T. BOSHER, Assistant Chief Engineer. mar 10-1w

TELEGRAPHIC NEWS.

NOON DISPATCHES.

The Grand Entries—Honors to the Conquerors—Heroes—The Standard—A Note on Gladstone.

LONDON, March 13.—The crowds which witnessed the procession yesterday, were at some points so dense and the pressure so great that several accidents occurred. A stand at Charing Cross broke down, throwing some 30 persons to the ground. The police report the total casualties during the day at 4 killed and 24 injured. The city of Portsmouth will give public banquets to the troops returning from the Chinese expedition.

Standard in a leading article on Summer says, that he was a fine speaker and personally honorable, but he was utterly wanting in statesmanship.

LONDON, March 13.—Gladstone has issued the customary note requesting the presence of his supporters on the reopening of Parliament. At the same time he has written to the Earl Granville saying: "Whilst discharging this duty I feel it necessary that I should explain what the character of my opposition would be if I could not concur with you in your individualistic position. For a variety of personal reasons I could not countenance an unlimited extension of active political service, and desire my political friends to clearly understand that at my age, I must reserve entire freedom to disserve myself or responsibilities of leadership at no distant time. The need of rest will prevent more than my occasional presence in the House during the present session. I should be desirous before the commencement of the '87 session to consider whether it would be advantageous to keep my services for a time at the disposal of the party, or whether I should then claim exemption from duties hitherto discharged. If, however, there be reasonable grounds to believe that instead of the course which I have sketched, it would be preferable in the view of a party generally, for me at once to assume the position of an independent member, I should willingly do so, retaining all my desire for the welfare of the party, and if a leader be chosen or in the interior provision be made for the present year, any successor should receive every assistance he might seek or could render."

MISCELLANEOUS ITEMS.

NEW YORK, March 13.—A Herald from London on the 12th says Rouher Pietri and several hundred prominent Frenchmen have already arrived to attend the festivities at Chislehurst on the occasion of the majority of the Prince Imperial.

SAN FRANCISCO, March 13.—Disraeli's note to-night states that the snow is falling hard in the Sierras with great violence. An emigrant snow plow and five engines are off the track. No trains are expected to get through to-night.

BOSTON, March 12.—The billiard tournament game this evening between Garnier and Duly was won by the latter by 88 points. In the evening Cyril Dion beat Bussey, winning by only two points.

FROM WASHINGTON.

Summer's Remains.

WASHINGTON, March 13.—The hearse containing Mr. Sumner's remains was preceded by half a dozen carriages and followed by some three hundred colored people on foot. The display was very modest and well behaved. Quite a number of policemen kept the avenue clear of rabble. A vast crowd is passing through the rotunda to take a last look.

MIDNIGHT DISPATCHES.

FOREIGN NEWS.

From England and Rome.

LONDON, March 13.—The Liberal journals publish highly eulogistic obituary notices of Sumner.

The Times of this morning, in a leading article, says that so long as Gladstone remains in the House of Commons he is the only possible leader of the Opposition. Every true Liberal will accept his leadership on his own terms.

The Daily News says that Gladstone's name is a tower of strength. The whole body of Liberals regard him as their natural head. Any other person would only be a leader of a section.

ROME, March 13.—The Pope has written to the Patriarchal Bishops inciting them to use all their influence to prevent the passage of the proposed ecclesiastical laws.

At the regular half yearly meeting of the Directors of the Bank of England it was announced that the total expense incurred in the pursuit and prosecution of the two Bidwell's and MacDonnell, the parties who committed the frauds on the Bank, was £46,000.

FROM WASHINGTON.

Request of Summer's Art Collection—Summer's Remains Taken to Boston.

WASHINGTON, March 13.—Sumner bequeathes his art collection to the Corcoran Gallery.

All Federal business suspended in respect to Summer's bequests.

Senator Gilbert, halting from Florida, has Sumner's chair.

To-day the Capitol was crowded. Sumner's remains left at 3 o'clock by a special train.

Committees held no sessions to-day.

The Massachusetts Historical Society.

BOSTON, March 13.—At a meeting of the Massachusetts Historical Society, Robt. C. Winthrop announced the death of ex-President Fillmore, an honorary member, and of Charles Sumner, a resident member, and paid appropriate and eloquent tributes to them. A resolution in relation to the death of Sumner was then offered by Charles Francis Adams, which, after a few remarks also by ex-Gov. Clifford, Judge Thomas, Edmund Quincy and Rev. Mr. Waterson, was unanimously adopted.

The Same Old Tale.

BALTIMORE, March 13th.—Mrs. Bridgett Ward, aged 45 years, attempted to accelerate a ride with fire with coal oil. The usual consequences happened, i.e., can containing half a gallon of oil exploded. The unfortunate lady was burned so that she died in a few hours.

Weather Probabilities.

WASHINGTON, March 13.—For the South Atlantic States northeast and northwest winds with clear or fair weather, rising barometer and but slight changes in the temperature.

FROM VIRGINIA.

Kemper's Veto Sustained—Wrathy "Newspaper—Can't Swallow Them."

RICHMOND, March 13.—The Senate branch of the General Assembly, in which the bill providing a new charter for Petersburg originated to-day, by a vote of 25 to 13, sustained Gov. Kemper's veto. The debate was most heated and exciting. The speeches of the Conservative friends of the bill being denunciatory in the extreme of the Governor's action, while other Conservatives as warmly sustained him. The Petersburg papers of to-day devote whole columns to severe criticism and invective. The Landmark and Virginian of Norfolk, also, have several editorials against the Governor. The Wig and Enquirer of this city depurate the whole, while the Richmond Dispatch sustains the Governor. If the chart had gone into effect the municipal government of Petersburg would have been virtually transferred from Republicans to Conservatives. The vote as to whether the bill should pass, notwithstanding the Governor's objections, is classified as follows: Ayes, 13; Conservatives, 16; Republicans and 9; Republicans.

In the House to-day a series of eulogistic resolutions regarding Chas. Sumner were introduced by Syphax, colored. The vote on the resolutions was as follows: by Syphax and Palms another colored member. They were, however, tabled.

Five alarms of fire have occurred here since noon. Only one, however, resulting seriously. Weather very cold.

FROM NEW YORK.

Literary News.

NEW YORK, March 13.—S. H. Gay who, in conjunction with Wm. G. Bryant, is engaged on a literary work soon to be announced, is about to retire from the editorial staff of the Evening Post, where he will be succeeded by Albert G. Brown, of Boston, formerly secretary to Governor Andrew.

FEMALE DOCTORS.

PHILADELPHIA, March 13.—Sixteen females graduated to-day at the Commencement at the Woman's Medical College as Doctors of Medicine.

A Woman Buried Alive.

AT Chapmanville, Pa., two weeks ago, a woman named Martha Coggswell, wife of Anthony Coggswell, a drover, died, as was supposed, and was buried. Her husband was absent at the time. His first knowledge of his wife's death was on Saturday last, when he returned home. Almost with grief, he burst into the room where she lay, unburied, and, that he could see the remains. This was done, and the coffin opened in the presence of several friends. To the utterable horror of all, the body had changed its position in the coffin, showing that Mrs. Coggswell had been buried, while she was in a trance. The body was lying on its face. Evidences of a fearful struggle made by the unfortunate woman when she recovered consciousness in the coffin were visible. The flesh was torn from one shoulder, and the shroud covered with blood. When Mr. Coggswell saw what a terrible fate his wife had met, he fell senseless across the coffin, and has had a running mania ever since.

CURIOS TRADITION.—A very curious tradition is said to exist among the natives of Alessandria with regard to the origin of burial. They say that when Adam found the body of the murdered Abel he carried it about upon his shoulders for twenty days, not knowing how to dispose of it. The Almighty took pity upon him, and sent forth a crow with its dead young one upon its back; and the crow flew before Adam until it came to a tract of sandy ground, in which it dug a hole with its feet and there buried its young one. And when Adam saw this he dug a grave in the sand and buried his lost boy in it.

The noted Mrs. Somerville read Greek every morning before breakfast, and studied higher algebra after she was ninety.
